## TEACHER MINI-GRANTS

Woodward Granger Foundations offers teacher mini-grants to help our teachers with special projects. This year we awarded grants for the preschool class to enhance the science center and dramatic play area to align with the Creative Curriculum studies. We also awarded a grant for One School One Book, a special program that unites students, staff, and community members by reading the same book at the same time. This shared journey sparks meaningful conversations, builds connections, and fosters a lifelong love of reading.

Woodward Granger Foundations and the Polka Dot shop teamed up to make magnet calendars for the 2025-2026 school year. These calendars were handed out at our back to school nights at all of our schools for free.

## SUMMER ENRICHMENT

The Woodward-Granger Community School District Foundation launched the Hawk Summer Enrichment Scholarship to help students in grades 6-11 explore unique learning experiences this summer! Elliot Topalovich received this year's scholarship to go to Simpson Jazz camp. In this camp, Elliot learned how to improvise, some simple instrument repair, music theory, among other music subjects. On the final day the camp performed a trio of jazz songs to a crowd of over 100 people.
